National Student Clearinghouse Enrollment and Degree Reporting Updates

Presenter: Andrea Liner, National Student Clearinghouse

Location: RC101

The National Student Clearinghouse's (NSC) enrollment and degree reporting allows institutions to offload the burden of enrollment and degree reporting to the NSC. The process provides status information on student financial aid recipients to the education finance industry and the Department of Education's National Student Loan Data System (NSLDS). This workshop is designed to help beginners and novices understand how the information flows from your institution to the NSLDS. In addition, to the overview the NSC will discuss timelines, error code resolution, 2021/2022 updates and so much more. During the workshop a member of the Data Excellence and Operations will be available to assist Andi Liner, Regional Relationship Manager and Julie Esau, Regional Relationship Director with burning questions that your institution may have as it relates to enrollment and degree reporting.

Opening Speaker

Lead Your Evolution

Presenter: Judson Laipply

Location: RC101

Everything changes. Not everything evolves.

Good people and companies aim to manage that change. Exceptional people and companies stop managing change and start leading evolution.

Change is inevitable; evolving is not. Evolving means becoming a better version of ourselves, our organizations, our world by focusing on the things we have influence over. The most efficient way to aid evolution is to overcome the adverse reaction to chaos and embracing the struggles that strengthen then utilize action and choice to foster growth. As leaders we need to help our organizations see the need to evolve as the world moves faster and faster requiring a constant evolving mentality. Learn practical strategies you can implement personally and professionally on how you can help lead your evolution.

2:15 p.m.—2:30 p.m.

Corporate Partner Fair & Snack Break

Location: RC Atrium

2:30 p.m.—4:30 p.m.

Motivation, Inspiration and Manipulation: Getting ourselves and others to get stuff done.

Presenter: Judson Laipply

Location: RC101

To complement and drive well architected strategies, team building requires people who are engaged, recognized, motivated and inspired; people who can challenge, transform, and be accountable. Explore the complex role of group interaction and individual behavior in order to guide and optimize strong leadership skills and a strategic mindset. This interactive session will help you understand the origins of behavior; manage change, while maintaining focus on the goal, and make you think—creatively & critically so that you can motivate and inspire yourself and those around you to get on the bus that's headed toward your or your organization's vision goals and mission.

Learning Objectives:

1. Identify the difference between motivation, manipulation, and inspiration and how they can be used to build teams that will affect change toward fulfillment of organizational initiatives,
 2. Understand and recognize cognitive bias and how it influences behavior & decision-making, and
 3. How change can create lasting belief systems and behaviors in ourselves and others, and can transform the human resources that drive the success of a business or organization or township

COVID Impact on Admissions Recap and Roadmap

Presenter: Brandi Brenner, Pittsburg State University

Facilitator: Lynnette Hilty, Hutchinson Community College

Location: RC181

In this hybrid presentation/forum we'll look back on where we were when COVID hit in the spring of 2020, how we've adapted (whether in the admission process/standards, recruitment, retention or registrar practices) and where we're going as we transition out of the pandemic. Come join the conversation!

Tips and Tricks to Develop and Retain Staff

Presenter: Eric Sanford, Friends University

Facilitator: Brette Hankin, Colby Community College

Location: RC270

Developing and retaining staff is critical to any successful Registrar or Admissions Office. We are in the midst of the Great Resignation so this session will focus on how to best support and retain staff while preparing them for their next professional endeavor. Best practices used, cases, and audience participation will be a part of this session so come ready to learn how to best empower your team.

How to Create Student-Friendly and Efficient Course Schedules

Presenter: Stacey White, Ad Astra Vice President

Facilitator: Marcia Miller, Bethel College

Location: RC185

Learn how Ad Astra's planning and scheduling solutions provide opportunities to reimagine a foundational component of student progress and retention: the course schedule. While the methodology of rolling forward and tweaking the course schedule based on what was offered the last like term has been the historical norm, Ad Astra's solutions provide a more effective and efficient way to build a course schedule that is optimized for students. Ad Astra solutions allow for data to be at the fingertips of the decision-makers and provide a platform for cross-departmental collaboration when planning how the curriculum is rolled out through the master schedule. Real-time data points, including pathways and enrollment, are used to help make scheduling decisions and provides the ability to monitor registration and respond in the moment to changing enrollment trends. The seamless integration to SIS systems provides an opportunity for a complete, end-to-end scheduling experience.

KACRAO CHEERS - Efficient and Effective Networking

Presenter: Bryan Crouch, Flint Hills Technical College

Facilitator: Ashley Johnson, Flint Hills Technical College

Location: RC 270

Making your way in the world today takes everything you've got. Taking a break from all your worries sure would help a lot. Sometimes you want to go where everybody knows your name and they're always glad you came. You want to be where you can see our troubles are all the same. We're all busy these days, but that doesn't mean you're too busy for networking. Networking doesn't have to be a time-intensive process. Let's discuss some ways you can do it efficiently and effectively.

Veteran Services on Campus: Serving Students in Ever-Changing times

Presenter: Kena Zumalt, Johnson County Community College

Facilitator: Courtney Metcalfe, Fort Scott Community College

Location: NMOCA 212

How do you keep up with the ever-changing landscape of veteran benefits, tuition assistance programs and veteran and military-affiliated student needs?

Join Kena Zumalt, JCCC Veteran & Military Student Services Program Director, for a round table discussion about best practices on serving this student population while keeping current on benefit compliance issues.

Using Degree Audit Analytics to Increase Retention and Completion

Presenter: Michael Taft, Zogo Tech and Pete Belk, Johnson County Community College

Location: RC 185

Come hear examples of colleges that have unlocked valuable data in their existing degree audit systems to increase enrollment, retention, and graduation rates. These colleges can now run degree audits for all students, against all programs, and all catalogs in a few seconds. This allows them to answer questions like: "Which students are close to completing ANY credential (not just the one they are pursuing)?" or "What are the most commonly needed courses next semester?"

Strengthening Data Analysis Skills in Admissions

Presenter: Rina Campbell, InRoads Analytics

Location: RC 144

This session will focus on the lack of experience among admissions professionals to perform data analysis functions in their positions. Ultimately, they should be able to independently collect data, manage and strategically use it, interpret it, and communicate data findings to both internal and external groups. These skills will significantly impact the effectiveness of their recruiting efforts. Participants will leave with a solid understanding of how to integrate data analysis into their daily workflow.

Apply Kansas

Presenter: Amy Morris, Neosho County Community College and Tara Lebar, KS Board of Regents

Facilitator: Lynnette Hilty, Hutchinson Community College

Location: NMOCA 212

The first step in going to college is to apply! For many students, applying to college can be a daunting task, but it can be particularly overwhelming for first generation students. **Apply Kansas**, is our annual statewide campaign in which high schools conduct events to help seniors apply to college.

Admissions and Advising—The Ultimate Teamwork

Presenter: Janelle Darr, and Jamie Williams, Butler Community College

Facilitator: Bryan Crouch, Flint Hills Technical College

Location: RC 181

We will explore how our respective institutions involve our campus departments (with special attention to academic advising) to work together to give prospective students the best campus visit experience. Participants will look at how a variety of universities and colleges organize and implement their institution's departments to recruit students. Participants will also have an opportunity to discuss strengths, challenges and opportunities to use their campus resources for a great recruiting experience.

The Importance of Composable CRM for Admissions & Beyond

Presenters: Lawrence Levy, Enrollment RX

Location: RC 185

Can colleges and universities rely on legacy systems to recruit and enroll the students of the future? Will outdated software tools be able to reach applicants on new communication platforms, provide critical data integration with enterprise systems that are upgraded annually, and support ever-evolving operational requirements, even after staff turnover? Join us while we discuss how schools can best ensure a future-proof Constituent Relationship Management (CRM) technology strategy for recruitment and admissions.

Job Crafting

Presenter: Pete Belk, Johnson County Community College

Facilitator:

Location: RC 145

Everyone has a job description. Does anyone actually know what it says, let alone follow it? In job crafting, employees actively change their formal job designs to better suit their values, strengths, and passions, often resulting in greater enjoyment, meaning, and effectiveness. Job crafting was developed at University of Michigan. While I am no expert, I have used the principles along with my StrengthsQuest, Strong Interest Inventory, DiSC, and other profiles to re-write my job description and play to my strengths at work every day. Come see if it's right for you!

Gestures and Body Language

Presenter: Monica Zavala, Butler Community College

Facilitator: Sherri Conard, Butler Community College

Location: RC 157

As a professionals we find ourselves speaking in public in small or large groups, and as a speaker you know that the messages that your words convey can helped or hurt by the messages your body sends. This session will discuss how a speaker's body can be an effective tool for emphasizing and clarifying the words they use.

Community College

Thaliah Lopez, Salina Central High School, Cloud County Community College

I am pursuing an associates in Social Work at Cloud County Community College in Concordia ,KS this upcoming 2022 Fall semester. I am so grateful for this opportunity and excited for what's to come!

Technical College

Ridley Swader, Herrington High School, NCK Tech

Throughout high school I was involved in many activities to include most intramural sports and multiple educational and leadership/mentorship positions. These opportunities that have been provided to me, even in my small town, have made me the person I am. I will be attending NCK Tech in Beloit, Kansas for Heavy Mobile Equipment Operation. I plan on utilizing my skill to help communities build and prosper, even after devastating weather. I hope to later build and help Veterans homeless communities in rural areas to help them get on their feet!

Public University

Phillip Shirkey, Concordia High School, Kansas State University

Before my graduation a few weeks ago, I was a student at Concordia High School. There, I've participated in Theater, Choir, Band, Debate, Scholars' Bowl, and numerous other activities. My parents moved to Kansas from the East Coast, but I'm proud to be a 100% authentic Kansan. I enjoy playing the piano by myself or playing video games with my friends. I plan to attend Kansas State University and study Mechanical and Nuclear Engineering, and my long-term goal is to work in the private Aerospace industry.

Private University

Joseph Luebbe, Kapaun Mount Carmel Catholic High School, Newman University

I plan to study biology at Newman University beginning next fall. My long-term goal is to attend veterinary school at K-State upon completion of my undergraduate degree. I currently have a job taking care of animals. I volunteer regularly at the Kansas Humane Society and hope to become an employee there this summer. I have always loved animals and appreciate this scholarship which will help me achieve my short and long-term goals.
